Halltech is known worldwide as the GPS experts. With 14 years of experience we have earned a reputation for providing leading edge technology and uncompromising support. Halltech was founded on the sale and support of Global Positioning Systems and we soon realized that one manufacturer cannot be all things to all people. We now offer the broadest selection of GPS based technologies in Canada which gives us the flexibility to recommend the best solution.

Our representatives are NOT sales people; they ARE technical specialists. Their education and field experience will assist you in all aspects of your purchasing decision. 80% of our business is from repeat customers and word of mouth referrals.
